BYE BYE TO POVERTY

An SDP-inspired manifesto for Ikorodu

01 · PILLAR 1 OF 3

WELFARE

Affordability of food, transport, and housing.

	WHAT I WILL DO	HOW I WILL DO IT
01	Make food affordable again, so a mother can fill her basket without emptying her purse.	Back federal action on food prices, and set up cooperative buying so our markets buy in bulk and sell for less.
02	Bring down the cost of transport for the traders, artisans, and workers who pay to earn.	Fight for transport support that reaches the rider and the passenger, and end the multiple levies that push every fare up.
03	Open a path to decent, low-cost housing for young families across Ikorodu.	Pursue federal housing funds for Ikorodu, and work with our LCDAs to release land for low-cost building.

THE PROMISE

No family in Ikorodu should have to choose between food, fare, and rent. I will fight for all three.

Signed by me,

Hon. Adebosipo Ayinde

SDP CANDIDATE, FEDERAL HOUSE OF REPRESENTATIVES, IKORODU

HEALTHCARE

Open access to care for every citizen.

	WHAT I WILL DO	HOW I WILL DO IT
01	Create Ikorodu Medisure, a risk-based health insurance scheme that covers our people.	Pool the money from four places at once: private, federal, state, and local government.
02	Give every citizen free yearly screening. Women and children every year, men every two years.	Run screening through the local government health department, which also decides who qualifies for cover.
03	Place HealthPods across Ikorodu: small, accessible care points where families actually live.	Partner with the Lagos State primary healthcare network to put a HealthPod within reach of every ward.

WHERE THE MONEY COMES FROM

PRIVATE	FEDERAL	STATE	LOCAL

↓

IKORODU MEDISURE

RISK-BASED COVER · RUN CLOSE TO THE PEOPLE

THE PROMISE

No family should be one illness away from ruin. Medisure is how we end that, and I will help government build it myself.

Signed by me,

Hon. Adebosipo Ayinde

SDP CANDIDATE, FEDERAL HOUSE OF REPRESENTATIVES, IKORODU

TOWNCARE

Sanitation, safety, roads, and community health.

	WHAT I WILL DO	HOW I WILL DO IT
01	Clean up our streets with real sanitation and proper waste management.	Fund a standing waste collection service in every LCDA, with the schedule published so people know when to expect it.
02	Back community policing, so families walk home safely and traders work without fear.	Resource ward security committees that answer to the community, and press for federal support for local policing.
03	Fix the roads that matter: trade routes, market access, and links to the main road network.	Send zonal intervention funds to those roads first, with the contractor, the budget, and the completion date made public.
04	Build public health and fitness centres in every LCDA of Ikorodu.	Site them beside the HealthPods, so prevention and care sit in one place under the same local health department.

THE PROMISE

A town that is clean, safe, and connected is not a luxury. It is the least Ikorodu is owed.

Signed by me,

Hon. Adebosipo Ayinde
